

## **ICRIER invites applications for Research & Policy Analyst**

The Telecom and Technology Policy Team at the Indian Council for Research on International Economic Relations (ICRIER) is looking for a research and policy analyst to work on the **ICANN Research and Multi-stakeholder Engagement Assistance Programme** funded by the National Internet Exchange of India (NIXI) in collaboration with the Ministry of Electronics and Information Technology (MEITY). The role requires working directly with the National Internet Exchange of India (NIXI) at their New Delhi office, on issues of global internet governance and developing India's engagement therein.

### **Qualifications**

Candidates with a degree in law, or post-graduates in public policy. Candidates with different disciplinary backgrounds may also apply provided they are able to show relevant policy research experience.

**Experience:** Relevant work experience in the realm of internet governance of 1 - 3 years is preferred. Candidates with less than 1 year experience may apply highlighting relevant research experience or outputs.

### **About the Role:**

The candidate is expected to be able to research, analyze, and produce high quality independent work. They will also assist in creating and managing databases, organizing events and stakeholder consultations as per requirements under the Programme.

Please send your applications with subject as "RPA Application to ICRIER-IRMEAP" to [isuri@icrier.res.in](mailto:isuri@icrier.res.in) and cc to [araj@icrier.res.in](mailto:araj@icrier.res.in) with the following:

1. A cover letter expressing interest in working on this Programme (Maximum 500 words)
2. Curriculum Vitae
3. Contact details of 2 referees
4. Brief Writing Sample (Maximum 1200-1500 words).

Shortlisted candidates will be contacted for an interview.

**Last Date for application: 15th January 2021**
