

## **ICRIER invites applications for the position of a Research Assistant for the Digital Economy, Start Up and Innovation Team (DESI)**

The Indian Council for Research on International Economic Relations (ICRIER) is inviting applications for the position of a Research Assistant for their Digital Economy, Start Up and Innovation (DESI) team. We are looking for a bright, motivated and enthusiastic candidate interested in engaging with areas of technology and telecom policy research.

### **Qualifications**

Candidates with post graduate / Master's degree in economics or public policy are encouraged to apply. Candidates from different disciplines or with multi-disciplinary backgrounds with experience in policy work or inclined to transition to policy work are encouraged to apply.

### **Job Description**

Research Assistants are expected to contribute to research projects and research related activities of the team including activities such as data collection and statistical analysis, literature review, regulatory benchmarking, report writing, etc. They will also assist in creating and managing databases, organizing events and stakeholder consultations as per the requirement of different research projects. Knowledge and experience of both qualitative and quantitative research methods and familiarity with interdisciplinary research methodologies will be necessary. Prior knowledge and research experience on digital economy issues would be a plus. Fluency in oral and written English will be welcome.

Please send your applications to **Sonia Chopra ([schopra@icrier.res.in](mailto:schopra@icrier.res.in))** with subject title Research Assistant Application - ICRIER-DESI with the following:

1. A cover letter expressing interest in policy work
2. Curriculum Vitae
3. Contact details of 2 referees
4. Brief Writing Sample (Maximum 1000 words).

Shortlisted candidates will be contacted for an interview.

**Last data of application is September 20, 2021**
