

ICRIER with the support of Ministry of External Affairs is organizing an international conference that will bring together thought leaders and internationally renowned experts from nine emerging economies (E9), namely Brazil, China, Egypt, India, Indonesia, Mexico, Nigeria, Russia and South Africa.

The Hon'ble EAM Shri Pranab Mukherjee has confirmed his participation at the conference. We also expect the Foreign Secretary and other senior policy makers, academicians and industry representatives from India and these countries to participate in this one and half day event. The conference will address both economic and strategic dimensions of issues that are currently at the top of global policy agenda.
